

Hunter

**workspace**  
commercial furniture

The Hunter delivers every time with its comfortable, style and compact dimensions.

Hunter is an essential piece for many aged care and healthcare applications with a variety of uses such as bedroom chairs or compact lounge seating. Hunter's versatility also allows it to fit perfectly into any office, hospitality and education environment as visitor lounge seating.

Hunter has been designed to be long lasting, supportive and extremely comfortable chair with webbed seat and back quality foams and hardwood timber frame. This ensures it meets all the criteria for aged care durability requirements as well as posture & comfort needs. You can also select your choice of clear or stain finishes with 2 pac clear lacquers to integrate Hunter with your décor selections.
