Workspace products are manufactured at our ISO14001 and ISO9001 certified production facility - our Quality and Environmental policies are available at our website, or in our booklet 'Making your workspace a greenspace'.

# workspace

#### Fusion Screen Capping

Fusion screens can be finished with either flat or curved capping.  
Screen thickness is 65mm.  
The panel options are shown on the Technical Details page.

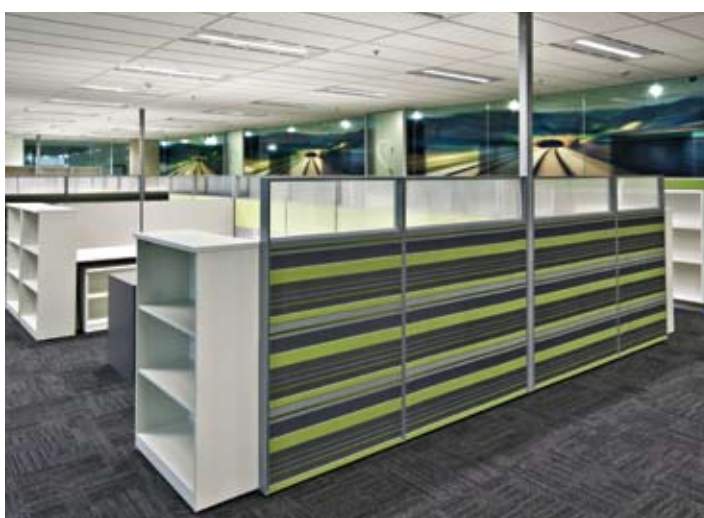

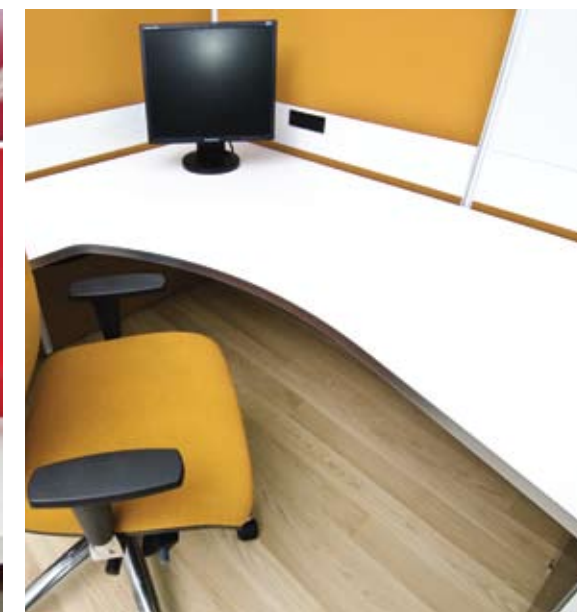

#### Shelves

Adjustable shelves can be pre-laminated panels or powdercoated steel.

#### Function Wall Panel

This panel option keeps the work surface clear.  
You can improve productivity easily by selecting the right accessories for the Function Wall.

## Versatile Fusion

Every workstation plan is unique, and Fusion is right for any workstation plan.

For real workplace productivity:

- Step 1.** Talk to the experts. Our consultants and planners will show you that choosing Fusion leads to workplace productivity through functional, efficient workstation design.
- Step 2.** Check over our detailed CAD plan presentation, see the results, confirm the design.
- Step 3.** Move on to the next project – workstations taken care of.

#### Leg Options

The following support systems, as used for stand alone workstations, are perfect for Fusion screen based workstations as well.  
Any colour can be specified from the standard powdercoat ranges.

**Drive Leg**  
technician height adjustable

**Studio Leg**  
technician height adjustable

**Manual Winder Leg**  
user height adjustable

**Rondella Leg**  
fixed height, 65 diameter

**Slab End**  
fixed height panel on leveling feet

#### Worktop Options

- 25mm or 33mm panel thickness.
- Zero emission E0 board or low emission E1 board.
- Pre-laminated or Veneered tops.
- Custom top shapes.
