# RETAIL HOSPITALITY SECTOR

The Retail hospitality segment is one of the most rapidly evolving commercial environments across Australia today. Whether you're opening a new restaurant or café or refurbishing an existing venue, we have the perfect retail hospitality solutions for you at Workspace Commercial Furniture. Workspace provides high quality retail hospitality furniture solutions for restaurants, cafes, hotels, clubs, bars and functions venues throughout Australia.

From high quality table tops and bases, to chairs, stools and booth seating we have it all for a complete design solution. We can customise booth seating and joinery solutions built to your individual needs and specifications. Whether your dining options range from indoors or alfresco, we have a wide range of furniture to suit all occasions and even a wide range of water proof outdoor furniture designed to cope with the ever-changing weather conditions. Our retail hospitality furniture is designed for maximum wear and tear use within public spaces and so café and retail owners can be rest assured that furniture solutions from Workspace will provide maximum comfort to your patrons and durability for regular use.

Workspace not only provides an extensive range of seating and dining options but can also design customised solutions to match the unique theme of your venue. As a proud Australian owned and operated business, we offer a complete end to end service from initial concept, to design, to manufacturing and we even deliver and install! Like many cafes and restaurants, we are an Australian owned and manufacturing business, allowing us to build and strengthen relationships between ourselves, suppliers and clients. Take advantage of our over 100 years of service and experience and rest assured that we will create a solution that is perfect for you and your venue!

With a wide range of office furniture, we also specialise in hospitality accommodation and office spaces including reception and visitor areas, task and executive chairs, meeting and board room tables and even back of house cabinetry! Workspace guarantee the highest quality product meeting Australian manufacturing standards every time.

Not sure where to start? Our friendly team can help you through the entire project design process from initial consultation and design concepts through to quotation and installation. We can help you create a look and feel that is perfect for your venue and most importantly one you are happy with! Check out our show rooms across the nation where our staff can take you through our extensive retail hospitality range as well as all other commercial furniture you may require for your venue.

## A-SLIM

A-Slim Chair – a fresh evolution of the A-Series range, designed and manufactured exclusively by Workspace. A-Slim draws its design inspiration from the hugely successful A-Series range. Maintaining its straight lines, softened corners and visually striking white ash frame, A-Slim comprises a slim frame and seat profile, bolstered by the introduction of an aesthetically complementary and functional steel footrest. A-Slim provides the design without compromising on comfort and durability. Visually appealing and at the heights of comfort, A-Slim delivers a smaller footprint than previous ranges. Crafted to incorporate continuous upholstery seating, and with the freedom for fabric and timber stain colours at your specification. A-Slim is the ideal modern seating solution for commercial environments, and specialty areas including education, hospitality, aged care, health and domestic.

# WES

The Wes Chair is a beautifully crafted timber chair with delicate curves and precision joinery that make it as much a piece of art as a functioning seat. Its premium leather and quality upholstery is a true comfort to sit on and this is only heightened by the flowing curves of the back and arm rests. Small details such as the tapered finger joints through the back rest and transitions between the legs and the arms are highlighted by the stunning grain in the timber. This chair is a fantastic feature for any hospitality setting. Its classic design compliments a large cross section of styles periods. Design and functionality at its finest.

## A STOOL

Workspace's latest in-house designed timber family is simply named A-Series after the A-frame form which is carried through the table, chair & stool range. The A-series was born of a requirement for a table which can be customised to any length requirement and can be supplied knock down if needed; and matching chairs which will fit into many different environments and the widest range of users. A-Series seeks to return the solution of quality Australian design and craftsmanship and delivers an exceptional user experience. The A series has been designed in the "super-normal" aesthetic to sit unobtrusively in any environment without dominating the space. Using traditional joinery, high quality foams and symmetrical geometry, A-series delivers on style without sacrificing comfort, practicality, or quality.

### Range

A Stool

### Options

Commercial grade vinyl seat  
Welded powder coated frame  
2 Year warranty

## A-SLIM STOOL

A-Slim Bar Stool – a fresh evolution of the A-Series range, designed and manufactured exclusively by Workspace. A-Slim draws its design inspiration from the hugely successful A-Series range. Maintaining its straight lines, softened corners and visually striking white ash frame, A-Slim comprises a slim frame and seat profile, bolstered by the introduction of an aesthetically complementary and functional steel footrest. A-Slim provides the design without compromising on comfort and durability. Visually appealing and at the heights of comfort, A-Slim delivers a smaller footprint than previous ranges. Crafted to incorporate continuous upholstery seating, and with the freedom for fabric and timber stain colours at your specification. A-Slim is the ideal modern seating solution for commercial environments, and specialty areas including education, hospitality, health and domestic.

### RANGE

# DANISH BAR STOOL

The Australian bar stool that set the gold standard for timeless furniture design. Amongst the most coveted mid-century pieces ever produced, Workspace Commercial Furniture (formerly TH Brown) is proud to announce the remake of the TH Brown Danish Bar Stool. The first in Workspace's new Origin's Collection, the Danish Bar Stool unveils a boutique collection with commitment to Australian design and manufacturing. In partnership with the third generation of TH Brown's family, we're bringing this iconic stool into the 21st century, while enhancing sustainability and durability with all products hand finished to the same exacting standards as the originals. Continuing Workspace Commercial Furniture's commitment to craftsmanship each stool comes with a ten year warranty, is individually numbered, with a certificate of authenticity, and features a range of fine Italian leathers and premium timbers.

# MARTELLE BAR STOOL

Martelle is the quintessential mid-century Australian bar stool for residential and commercial spaces. Workspace Commercial Furniture (formerly TH Brown) is proud to be remaking the TH Brown Martelle Bar Stool. The second piece to be released in Workspace's Origins Collection, the Martelle Bar Stool reinforces the Origins Collection's commitment to Australian design and manufacturing.

Continuing Workspace Commercial Furniture's commitment to craftsmanship each stool comes with a ten year warranty, is individually numbered, with a certificate of authenticity, and features a range of fine Italian leathers and premium timber. The versatility of the Martelle is matched only by the ability to customise seat upholstery in fabric, stitching and stain colours. These unmistakable pieces are not replicas, but a thoughtful evolution of TH Brown's original vision remade for 201

# TOM LOUNGE

Tom Lounge offers a new and surprising solution for collective seating aimed at the Contract universe. A range where the quality comes from the design and from the use of top quality materials. Conceived by Francesc Rifé, a designer with a high reputation within contract and facilities market, its style is notable for the minimalism of its forms and structures and for its lightness of line. The range includes comfortable seats and high or low backed armchairs which, matched with the chairs, give an integrated image to the furnished space. In addition to this, in order to offer a solution that completes the interior design image of the public space, Tom offers footrests for the greater comfort of users.

Range	Options	Features
Low Back High Back Single or Double seater	White or Black shell & metal frame options Available in a wide range of fabrics, leathers or vinyls	Sled base Upholstered high density foam seat & back Aluminium sheet shell Anti sliding transparent resin glides

# TRENT LOUNGE

Trent Lounge Chair – The Trent series of chairs originated from a single style, the Trent fully-upholstered tub chair. Now the series includes partly upholstered and upholstered variants, all of which demonstrate the upholsterer’s skill in working directly onto the timber frame. The closely related Trent Lounge chair is a valuable addition, as is the fluted-upholstery version. All Trent Chairs are made from plantation beech timber, which we can polish and stain to the colour of your choice, and of course you can select from a huge range of fabrics at our showrooms. These comfortable but well-proportioned chairs are likely to be your favourites for many years.

Range	Options	Features	
4 Leg Base	Clear Polish, Stained or custom painted finish	Features solid ash timber frames with mortise and tenon joinery Custom upholstery options	

# A BENCH

The A-Bench is the newest member of the A-Series range of products available from Workspace Commercial Furniture. A-Bench provides another element of flexibility to this product family expanding its applications to include education, hospitality, retail and health sectors. Once again the simple timber “A” frame design coupled with the customisable upholstery options makes the A-Bench seamlessly integrate into any environment it occupies. Quality materials and construction will see the A Bench provide a fantastic seating option for your space well into the future.

Range	Options	Features	
4 Leg Base	Clear Polish, Stained or custom painted finish	Features solid ash timber frames with mortise and tenon joinery Custom upholstery options	

# SEVILLE OTTOMAN

The Seville Ottoman: a name that evokes images of history and elegance, just right for this product that is designed and made right here in Australia. We revived old techniques for the deeply buttoned upholstery, but used modern methods and materials for strength and comfort in the inner frame, and the welded stainless steel base.

Range	Options	Features	
Long ottoman	Two length options available Multiple fabric options available	Timber construction Welded stainless steel base Deep button upholstery	

# HIVE OTTOMAN

In designing the Hive Ottoman collection of breakout furniture, the aim was to create a multi-use range of elements which can be added, taken away, expanded or regrouped. Inspiration was drawn from the natural structure of a beehive. Each member of the hive is integral and forms part of the collective, they also need to leave the hive at times to explore and collect resources. Other members come and take their place and when they return they once again become part of the collective. This is the idea behind Hive; Components can be removed, added, rearranged and grouped to form smaller hives or individual units. The hexagonal tables act as the central hub of the system and by their design, they naturally encourage collaboration. The design of the system also facilitates in minimising the footprint used and re-purposing the floor area for different uses. From a user point of view, our Hive collection is highly adaptive. With veneered tables and upholstered ottomans in any fabric, vinyl or leather; almost limitless configurations can be achieved. Collaborate or socialise in teams or take an ottoman and table for yourself. Hive is the perfect solution for waiting areas, casual breakout areas, cafés, and educational shared spaces.

## LILY CHAIR

As the name suggests, the Lily Chair takes its form from the gentle sweeping curves of a Lily flower. It may or may not be a coincidence, but the shape of a Lily is also ideal for a comfortable and elegant seat. Lily Chair is also very ergonomic – with a 360 degree rotating base in highly polished chrome, and moulded foam backrest – comfort and style are provided in the Lily Chair. In the standard black wool felt, Lily Chair makes a statement. It also looks great in our range of fabric colours and patterns.

### Range

4 Star Base

### Options

Black wool felt as standard  
Available in a wide range of fabrics

### Features

360 degree swivel base  
Moulded foam backrest  
Separate seat cushion  
Chrome plated base

## PODI

The Podi family is another of our compact lounge chair families, with its contemporary square style perfectly complementing the modern office environment. This may be the perfect choice for breakout areas or waiting rooms, where size does matter, along with comfort and durability. Podi Club can stand alone or compliment Podi one or two seater lounges. Its compact design allows Podi Club to fit where other lounges can't. By intermittently placing Podi and Podi club, you can create an adaptive, space efficient project. All Podi products can be assembled together to create a perfect break out area.

### Range

High density nesting capability

# ASCHAM RANGE TABLES

The Ascham Table has been designed for lightness of visual presentation without any reduction in actual physical strength. This has been achieved by moving the side rails of traditional tables out of sight under the top, which has the added benefit of giving more knee space for diners. This contemporary approach, and the unique enclosed end frame feature extends to occasional tables in the range, and can be further tailored to individual tastes with any one of an extensive range of polish colours.

**RANGE**

Dining Table  
Coffee Table  
Side Table

**FEATURES**

Top is 25mm panels with quarter cut European Beech veneer faces and solid timber edging, on a solid timber frame of Australian Ash, stained to beech colour and polished with 2 pac lacquer for durability. Longitudinal timber support rails under dining table tops prevent distortion.

## BREAK RANGE TABLES

# A-TABLE

Workspace’s latest in-house designed timber family is simply named A Series after the A-frame form which is carried through the table, chair & stool range. The A-series was born of a requirement for a table which can be customised to any length requirement and can be supplied knock down if needed; and matching chairs which will fit into many different environments and the widest range of users. A-Series seeks to return the solution of quality Australian design and craftsmanship and delivers an exceptional user experience. The A series has been designed in the “super-normal” aesthetic to sit unobtrusively in any environment without dominating the space. Using traditional joinery, high quality foams and symmetrical geometry, A-series delivers on style without sacrificing comfort, practicality, or quality.

# HIGH BARS

# CULTURE

Breakout areas are well recognised as productive areas of the modern workplace, where informal meetings can produce real benefits, so the role of breakout furniture itself is worth closer attention. The raised level of the Culture Table promotes standing conversation, over project drawings and brewed coffee, or stools can be brought in for longer sessions, still giving people the freedom to move about as they wish.

Range	Options	Features
4 Leg Base	Brushed stainless steel or custom powder coat base options Laminates, melamine, or veneer top options Custom dimension options	Indoor or outdoor suitability Shadow line Base cross bar Adjustable leveling feet

# ASCHAM

The Ascham High Table has been designed for lightness of visual presentation without any reduction in actual physical strength. This has been achieved by moving the side rails of traditional tables out of sight under the top, which has the added benefit of giving more knee space for diners. This contemporary approach, and the unique enclosed end frame feature extends to occasional tables in the range, and can be further tailored to individual tastes with any one of an extensive range of polish colours.

RANGE	FEATURES
Dining Table Coffee Table Side Table	Top is 25mm panels with quarter cut European Beech veneer faces and solid timber edging, on a solid timber frame of Australian Ash, stained to beech colour and polished with 2 pac lacquer for durability. Longitudinal timber support rails under dining table tops prevent distortion.

# ASTERISK

Sometimes a simple idea evolves into a versatile product range. In this case, it was the Asterisk Table – the little star on your computer keyboard that is used to communicate that something is special and deserves extra attention. Simple yet versatile, Asterisk comes in two table frame sizes and can be customised with your choice of top material ranging from 500mm up to 1200mm diameter and any size in between. Included in the range is the Asterisk stool which can be grouped with Asterisk tables to create a fun and vibrant breakout space.

Range	Options	Features
5 Star Base 5 Star Base Hi Bar	Small, large or high table Chrome plated, black/white, or custom powder coat base options Pre-finished board or veneer top options	Steel rod frame High table bag hook
