Workspace Commercial Furniture acknowledges and understands the distinctive challenges and highly specialised requirements facing today's Healthcare environments. Shifting from community based care facilities to combinations of larger scale public and private environments, Healthcare is a critically important and high cost business. Supporting our changing healthcare needs, aged population and ensuring the most effective investment is paramount.

Workspace actively seeks the opportunity to work with designers, builders and healthcare facilities and procurement experts to meet project furniture requirements and holistic segment future needs. Guided by third party expertise and our commitment to quality products and end to end service delivery, Workspace believes that our offer to the healthcare segment is industry best practice.

Healthcare is as critical, exciting, detailed and high stakes commercial environment, at Workspace we seek to provide furniture solutions that are be part of the solution for a better healthcare outcome for all.
