Sydney | Melbourne | Adelaide | Canberra | Brisbane

- ① **SEAT HEIGHT:** Pull the handle out and allow the gas-spring to lift the seat. Release the handle when the desired height is reached.
- ② **BACK TILT LOCK:** With the handle in the pushed-in position, push the backrest to the desired tilt position and then pull the handle out to lock. To release simply push the handle in.
- ③ **SEAT DEPTH:** Pull the handle out and slide the seat forward or backward. Release the handle when the seat is at the desired position.
- ④ **ARMREST HEIGHT ADJUSTMENT:** Press the button on the outer side of either arm-rest to unlock. Then slide arm-rest up or down to the desired height and release button.
- ⑤ **ARMREST POSITION ADJUSTMENT:** The armrests can be individually slid forward or back and rotated from side-to-side to a desired position.
