# Alumno

Alumno is the newest task chair to Workspace, and is the perfect task chair for all office environments. Taking into account the needs of long seating time, many considerations have been made to the Alumno to achieve its maximum level of comfort.

The suspension design of the backrest automatically adapts to the micro movements of your body, distributing weight evenly whilst reducing stress and encouraging movements. In addition, the curve backrest fits firmly to back, allowing your spine to maintain its natural "S" shape, providing a strong and comfortable support to the lower back. These key points help maintain healthy sitting posture.

Intuitive adjustment functions, including seat height and tension knobs are simple and easy to operate, allowing you to easily experience customised comfort. Adjustable back tilt angle and height adjustable armrests allow you to adjust to a comfortable position for various tasks.
