# Cleland

The Cleland Timber Chair is another one of our traditionally joined, solid timber dining/visitor chairs. Due to its traditional form and extremely durable construction, the Cleland Timber Chair is a common favourite for aged care, hospitals and meeting areas.

Cleland is available with supportive contoured arms or without and it also meets all the required criteria of seating postures for aged care requirements.

Upholstered with premium foam and available in clear or stained finishes with 2 pac clear laquers applied.
