Cozy

Designed for the modern commercial environment and a broad target audience the Cozy chair family provides extra comfort and advanced ergonomics. The open lumbar area and flexible back allow a user to sit in the most comfortable posture. The inner structure of the back cushion follows the body's natural movement and maximises comfort.

The Cozy chair family comprises varied and complimentary seating configurations. With the flexibility of upholstery finishes as well as different arm & leg configurations, there is a Cozy Chair that can be tailored to suit most needs. Cozy is a perfect addition to any commercial or domestic space.
