Olea

Drawing its name from the extended 'Oleaceae' family of flowering plants and inspired by mid-century aesthetics, Olea designed exclusively by Workspace Commercial Furniture, echoes the fundamentals of integrated design and manufacture.

Olea comprises both single and two seater compact lounges which provide enduring comfort and elegance in a reduced physical footprint. Solid ash timber legs spanning from its naming origins, moulded plywood mono-shell and premium foam, succeed its design intent of quality and minimalism ensuring relaxation and elegance.

Designed specifically to minimise the footprint of your project or space, whilst ensuring finish flexibility in colour or contrast, while maximising comfort and style.

Olea the natural option for your environment. Exclusive to Workspace.
